

Open eVision Studio

Evaluation and prototyping tool

At a Glance

- Intuitive graphical user interface, allows you to call and immediately see the result of any Open eVision function
- Able to generate C++, C# and Visual Basic code
- Free when using Open eVision 2.0 and above

Benefits

Open eVision Studio: Evaluation, prototyping and development tool

Open eVision Studio is the evaluation, prototyping and development tool of Open eVision. Its intuitive graphical user interface allows you to call and immediately see the result of any of eVision's functions. A scripting function generates the corresponding code, which can then be copied and pasted into your application.

Open eVision Studio is free (when using Open eVision 2.0 and above) and can be downloaded to evaluate the performance of Open eVision.

Now Free

Open eVision Studio is free (when using Open eVision 2.0 and above) and does not require any license. Just click on [DOWNLOAD OPEN EVISION STUDIO](#) above, register and install Open eVision. Sample images, manuals and sample programs are included.

Code generation

Faster than reading the manuals! Any function called from Open eVision's menus and dialog boxes sees its corresponding C++, C# or Visual Basic code added to the script. Just copy the relevant parts to your application to include the corresponding functionality.

Template creation

Open eVision Studio includes functions to interactively create templates for EasyMatch, EasyFind and EasyOCV, as well as manage EasyOCR and EasyOCR2 font databases.

Open eVision Evaluation

Load your own images into Open eVision Studio and immediately see the result of any Open eVision function. No programming is required.

Benchmarking

Open eVision Studio measures and displays the real execution time (on your machine) of any Open eVision's function.

Specifications

Ordering Information

Product code - Description	<ul style="list-style-type: none">• 4163 - Legacy Open eVision Studio 1.2 for USB dongle• 4213 - Legacy Open eVision Studio 1.2 for PAR dongle• 4263 - Legacy Open eVision Studio 1.2 for soft-based lice
